DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-23, drawn to a tube.

Group II, claim(s) 24-25 and 36, drawn to a film.

Group III, claim(s) 26, 28-29, and 32-33, drawn to a method of making a film.

Group IV, claim(s) 27-29 and 32-33, drawn to a method of making a tube.

Group V, claim(s) 30-33, drawn to a method of sealing a container.

Group VI, claim(s) 34-35, drawn to a container.

2. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claims 1-36 are either obvious over or anticipated by US 2,762,720.

Art Unit: 1772

Accordingly, the special technical feature linking the inventions, a substrate layer that has the degree of shrinkage in both the longitudinal and transverse directions within the claimed ranges, does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore, restriction is appropriate.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
